To All:

We are properly constituted and have sufficient States of the Union populated and able to conduct business for The United States of America, our Federation of States, and also The United States, our unincorporated Union of republican states. The remaining States are in the process of assembly.

We issue this Decree Over Mandate to exercise our Lawful Government and to remove all presumption of Agency, Emergency, or Absence related to The United States of America.

We declare with full competency that we are Lawful American States and Lawful Persons to whom the Original Equity Contract known as The Constitution for the united States of America is owed. We further declare that we are owed the Good Faith and Service of the Municipal United States Government and the British Territorial United States Government.

Declaration of Absolute Jurisdiction

The United States of America is an unincorporated Federation of Sovereign States organized as a Holding Company on 9 September 1776 to hold and to wield all Mutual Non-Domestic Powers of the separate States. The United States of America is the Delegator-in-Fact of all Powers ever delegated under any Federal, Territorial, or Municipal Constitution, and is the Final Arbiter of all contracts, obligations, and prerogatives exercised internationally by this country.

As our American Government is a Living Government and its sovereignty is firmly vested in the living people of The United States and exercised by the Lawful Persons of The United States of America, there can be no offer of contradictory authority from any foreign subcontractor nor any incorporated entity or agency working on a For Hire basis nor on a Voluntary basis nor acting upon Assumption of any prior contractual relationship. All foreign subcontractors — unincorporated, corporate, and incorporated — and all federal subcontractors, federal, territorial, and municipal, together with all franchises and agencies thereof, are obligated to stand subject to our authority while proposing any action whatsoever in our behalf.

With this acceptance and acknowledgement of the Absolute Jurisdiction of The United States of America non-domestic to The United States, all Parties to all agreements, all treaties, and all service contracts established by The United States of America, held in trust for The United States of America, or creating any contractual obligation related to The United States of America, agree to Honor their obligations and to abide by the Public and Organic Law of this country without evasion, obfuscation, or constructive fraud. We, Lawful Persons born on the land and soil of our respective States of the Union, are not subject to any foreign federal citizenship obligation, being neither British United States Citizens nor Municipal citizens of the United States, two capacities created by the three constitutional agreements known as: The Constitution of the united States of America (1787), The Constitution of the United States of America (1789) and The Constitution of the United States (1790). We do not accept, nor do we adopt any foreign citizenship at all. We are not members of any religious cult and not party to any consecration invoked by Franklin Delano Roosevelt.

We, American People, are American state nationals as recognized by the Territorial Federal Code at: 8 USC 1101 (a) 21 by birth, and also may choose to serve in the capacity of State Citizens, as further recognized at: 8 USC 1101 (a) 22 (B).

We, States and People of this country, are today faced with the necessity of addressing numerous misunderstandings, usurpations, and criminal activities including Gross Breach of Trust and Fraud on the part of our Foreign Service Providers.

Our States of the Union, all unincorporated members of the Federation of States doing business as The United States of America, which is itself an unincorporated Holding Company formed September 9, 1776, were never involved in the so-called American Civil War, which was a Mercenary Conflict among members of the Confederation of States of States formed under The Articles of Confederation issued March 1, 1781.

That is, business organizations chartered by our States to act as Service Providers, went to war on our soil. The original Confederation was split into Northern States of States and Southern States of States. The Northern Confederation was joined by the British Territorial Government doing business under our name and operating under our delegated power as the United States of America. The Southern Confederation was joined by the Municipal United States Government doing business under our name and operating under our delegated power as the United States.

None of this has ever had anything to do with us, our Federation doing business as The United States of America, nor with our individual States, nor with the civilian populace occupying the land and soil of this country. This was a squabble between Federal Service Providers on our soil — all run amok — and continuing to stage a cold mercenary war on our soil, as a means to profit themselves for the past 150 years. If these Federal Service Providers were in fact under some separate hegemony there might be an excuse for their behavior in the absence of an official Peace Accord settling the American Civil War, however, a closer examination of the circumstance shows that in fact:

The Queen acts as the Pope's Overseer and Administrator over the British Territorial United States which is a Commonwealth, and the Pope's Municipal Administrators function in the same role over the Municipal United States; thus, we are treated to the spectacle of two Roman Catholic corporations in the business of providing governmental services pretending to be at war with each other, while in fact being under the same ultimate ownership.

This is your Notice of International and Global Fraud on an unimaginable scale; we, as an entire country, have suffered a national level identity theft, at the hands of Federal Service Providers acting under contract and treaty, and receiving their paychecks from our largesse. It would be bad enough if we were the only country impacted by this fraud, but we find that many other national governments have been similarly undermined by the same players — the British Monarchs and the Popes.

Declaration of International Bankruptcy

An interlocking trust directorate scheme involving more than 150 major corporations worldwide has been employed to establish what can only be described as Corporate Feudalism, a control system that enslaves

the population of this planet and serves the same purposes as Colonialism, that is, to rob resources from less developed countries for the benefit of criminal activities and control mechanisms established via illegal patents and trademarks.

.These corporations stand forfeit and in liquidation for cause as crime syndicates and we insist that this system of oppression, like its Colonial predecessor, be shut down as a repugnant criminal enterprise serving to undermine national self-determination and individual freewill.

This is a Declaration for the Insolvent Debtors which are the United States (Incorporated)— a Municipal Corporation, and also for the United States of America (Incorporated), their actual Secondaries which are insurance companies and banks and foreign governments, their Heirs which are governmental services corporations, and their Assigns, which are various international organizations including the United Nations and the UN Corporation. This Declaration is issued by the Priority Creditors in fact.

These insolvencies and attendant procedures create a state of continuing reckless endangerment of the American people and results in criminal obstruction of their rights as Creditors and also results in various improper claims and impediments being imposed upon their assets. Action to reform the operations of these incorporated entities and to restructure and resolve this State of Emergency are required.

Bankruptcy and probate fraud are serious crimes. So is identity theft and impersonation. Making false claims or statements under penalty of perjury, concealing property, unlawful conversion of assets, obstruction of justice, improper securitization, false claims in commerce, counterfeiting, or obtaining money, resources, or property assets by means of fraud in connection with these insolvencies will result in severe punishment to the full extent of the American Common Law. Any of these or similar acts seeking to improperly encumber or convey or convert American assets will be considered crimes of piracy against the American people and their rightful living government.

This is not a declaration of any bankruptcy related to our Federation of States: The United States of America. The United States of America claims Gold Bonus 3392-181 along with all other actual lawful and legal assets owed to the American States and People and enforces its position as Primary Creditor, for Cause.

Decree Cancelling Fraudulent Awards and Improper Probate

Most recently, Americans are being offered Arbitration Awards via the Municipal United States Government and large amounts of military script are being promised. These awards are thinly veiled bribes to those who agree to stand under the King's Law and adopt British Territorial United States Citizenship.

Those promoting this Arbitration Award scheme are advertising themselves as Americans and as Patriots when in fact any settlement of British Territorial debts owed to British Territorial Citizens has nothing to do with us, and receipt of any such settlement results in Americans surrendering their claim to be Americans and obliges them to accept British Territorial Citizenship instead.

The Arbitration Award Scheme not only fails to describe the situation accurately and does not disclose the source of the funds nor the basis of eligibility to receive the funds, but also fails to disclose the fact that the Innocents accepting this bribe will lose their claim to be American State Nationals, will lose their right to own land and soil in their own country, will lose their constitutional rights and guarantees, and will become obligated as chattel backing the debts of the British Monarch and the Pope.

This is, in effect, a form of press-ganging, as it offers monetary inducement under undisclosed conditions, and results in the victims entering into unconscionable contracts that effectively kidnap them off the land and soil of this country and into the international jurisdiction of the sea, without any disclosure of the losses which will attend their acceptance of any such offer.

It is additionally inequitable and criminal in nature, because the military script being offered as a reward for accepting this Arbitration Award is in fact being generated from the victim's own property assets, which will be considered donated as gifts to the British Monarch — and through the British Monarch to the Pope — upon their acceptance. Thus, the offer is a false offer to begin with. They are, in effect, offering to pay the victims using the victim's own assets.

A similar condition exists with respect to what we shall call The Dead Baby Scam.

The British Territorial Service Providers set up a Public Charitable Trust for the welfare relief of American Negro Plantation Workers who were displaced by the American Civil War.

They conscripted American doctors, nurses, and dentists under Color of Law and imposed licensing regulations on them as if they were legitimately British Territorial Citizens, using their own Uniformed Officers Code, and coercing civilians to comply under false pretenses.

Next, they required these conscripts to falsify hospital records in such a way as to make it appear that all the women giving birth were unwed Mothers. According to them, all the babies born in America, are born without Fathers— which would amount to millions of illegitimate children and not a married woman in the whole country, including Catholics.

Next, they imposed upon these women to unknowingly donate their babies as wards of the British Territorial Government franchises operating as States of States organizations. This is done by importuning them to sign undisclosed private contracts, making it appear that all these purportedly unwed mothers were voluntarily surrendering unwanted children to the mercy of the British King.

Like the Arbitration Award Scam, this results in the victims being trafficked off their native soil and into the international jurisdiction of the sea, where they are misidentified as wards of the British United States Territorial commonwealth administered by the British Monarch. The British Monarch then splits the take with the Pope's other business operation, the Municipal United States Government.

In this manner, both the British Monarch and Pope got their hooks into Americans who are owed their Good Faith Service, instead of their malicious chicanery.

The victim's assets are then dumped into the Public Charitable Trust (PCT) created for the welfare relief of displaced plantation workers—and administered under Dead Letters of Administration issued by Territorial Courts to members of the British Bar Association. So the Pope hires the King and the King hires the Bar Associations to do the dirty work in the field, and all this criminality runs rampant in the international jurisdiction of the sea without a single hand or voice being raised in behalf of the suffering people of this planet, most of whom have been mis-represented in the same manner.

A third example of the depravity, criminality, Bad Faith, and incompetence of these erstwhile Federal Service Providers is found in the so-called Internal Revenue Service established by the British Territorial United States Government doing business in our names as "the" United States of America, and the IRS, a municipal corporation established by the Municipal United States Government, ostensibly to collect taxes from persons who were legitimately either United States Citizens or Municipal citizens of the United States.

The operations of these two separate but similarly named entities exist to collect taxes on income earned by actual Municipal and Territorial Corporations and Federal Employees, both British Territorial United States Citizens and their dependents in the military, and Municipal United States citizens and their dependents operating in various capacities.

No American State National or American State Citizen was ever legitimately subject to an income tax on their earnings, wages, salaries, business profits, or other gain from honest employment of any kind, but by various means of constructive fraud and undisclosed contracting processes the offending Federal Service Providers contrived to evidence false claims and extort income taxes from American State Nationals and American State Citizens under color of law and pretense of valid private contract.

In the case of the Territorial United States Government, the basis for these false claims were primarily established via The Dead Baby Scam. In the case of the Municipal United States, the basis for these false claims were based on purportedly "voluntary" participation in Federal Social Security programs that are not supposed to be available to the Public, and upon hidden novation contracts embedded in the 1040 Tax Forms people filled out and also upon their innocent participation in The Victory Tax Program adopted by the Municipal United States Congress during World War II.

Suffice it to say that average Americans are not organized as Personal Corporations and do not accrue federal corporate income, did not voluntarily nor knowingly create any intestate infant decedent estate nor donate any such thing to any Public Charitable Trust, did not willingly participate in the Municipal Government's pension program known as Social Security, were not the Parties being addressed when Franklin Delano Roosevelt "consecrated" the Municipal United States Government as a religious cult during his First Inaugural Address, and are not rendered "citizens" of either one of these foreign Federal Service Providers as a result of obeying what they believed were legitimate demands made upon them by Undeclared Foreign Agents improperly exercising positions of delegated authority and trust.

As a result, both these organizations, the Internal Revenue Service and the IRS, have been collecting billions of dollars-worth of taxes under False Pretenses and under Color of Law, from people who are actually their Employers and who are not subject to any such tax.

Again, we find that the Pope and the Roman Curia and their gross misadministration of Government Services Corporations, both Territorial and Municipal, are responsible for this criminality.

Even upon a diligent review of the circumstance we can find no plausible excuse for this behavior and these viciously enforced legal presumptions, beyond criminal and self-interested motives. Millions of innocent Americans have been preyed upon by these Territorial and Municipal corporations, both ultimately operated by the Roman Catholic Church— which has been grotesquely misusing the powers delegated and entrusted to these Principals under the terms of the Constitutions allowing them to be on our soil in the first place.

Mr. Charles Rettig, Commissioner in charge of these foreign tax agencies, is hereby served Notice that no debts are to be alleged and no income taxes are to be collected from any American State National or American State Citizen. No liens against our property assets public nor private are to be established or maintained against our names or any abbreviation, permutation, ordering, punctuation, variation or combination of names, now or at any time in the future. American State Nationals and American State Citizens are exempt from all such non-domestic (with respect to us) taxes, tariffs, and fees. All improper collection processes must immediately cease and desist, and all fraudulent liens, garnishments, and similar actions must be released. Living people and Lawful Persons are exempt and corporations issued in our Names/NAMES are tax pre-paid.

The only persons subject to Federal Income Taxes are actual Federal Employees and their Dependents, and that is a private obligation resulting from their employment with these Foreign Service Providers.

No unconscionable contract resulting from The Dead Baby Scam, and no other contracts lacking full disclosure, such as the Arbitration Award Scam, will be honored anywhere in these United States. Any attempt to improperly allege or collect Federal taxes or State of State franchise taxes so as to seize upon the property assets of American State Nationals or American State Citizens will be recognized as criminal trespass upon private property, racketeering, attempted unlawful conversion of assets, and attempted inland piracy. We hold the Pope and the Queen ethically and commercially responsible for properly directing and informing their employees to avoid all such criminal trespasses and criminal activities

Constructive foreclosure fraud by the municipal commercial banks is yet another example of lawless predatory behavior on the part of our Service Providers and their interlocking trust directorate. Millions of Americans have been evicted from their homes and other properties as a result of non-disclosed contracts and deceitfully misrepresented lending practices. Many more Americans have paid mortgages that they never owed.

We, The United States of America, bring our Decree Over Mandate before the face of Pope Francis, as he and his Predecessors are the owners of and have oversight as the actual operators of both the British Territorial Commonwealth and the Municipal United States Government. Clearly, they have colluded in conspiracy to overturn and make a mockery of our Constitutional Agreements and have evaded their own settled obligations and moral duties.

We, The United States of America, bring these issues before the face of the Vatican Chancery Court in the Person of Cardinal H.E. Cardinal Dominique Mamberti and before Pope Francis in the presence of these Witnesses and issue our Decree Over Mandate established by the various Constitutions and international treaties owed to us; we demand that these afore-described and all similar criminal activities, misrepresentations, and self-serving Legal Presumptions and Practices executed under the Rule of Law in avoidance of the Law, immediately and permanently — cease. By so doing, we do not offer to subject ourselves to the Vatican Chancery Court and are instead forcing it to observe its own duty in public.

We, The United States of America, want the world to know what kind of Business Partners and Allies the Popes and the British Monarchs have proven to be, and we want them exposed as the driving forces behind enslavement of our people, manipulation of world commodity markets, and perpetual war for profit. Obviously, the Popes and the British Monarchs have been secretly acting as criminals and playing both ends against the middle for decades while the rest of us slept on, trusting them to do the right thing.

We, The United States of America, bring these issues before the face of the Prosecutor of the International Criminal Court and before the faces of the Justices of the International Court of Justice and we publish our Decree Over Mandate before these Witnesses; again, not to subject ourselves to these Courts, but to force their action and deny them any plausible deniability otherwise. They either do their jobs with honor or they stand bankrupt of any law or moral code.

We, The United States of America, bring our demand for remedy for all those Americans who have been mistreated, misled, defrauded, robbed and misrepresented as a result of the described criminality, including mischaracterization of their political status and improper probate of their estates. We, The United States of America, similarly Decree Over Mandate and demand the return of all right, title, and interest owed to the American States and to the American People and furthermore demand restoration of all right, title, and interest owed to our unincorporated Federation of States: The United States of America —free and clear of Odious Debt and Encumbrances.

We, The United States of America, bring our information before the face of the United Nations organization in the Person of Antonio Guterres, and call upon the nations of the world to address this criminality and put an end to these plots to undermine the national governments that are members of the United Nations organization.

Decree Concerning Delegation of Powers Imposed

All members of the Armed Forces who are loyal to the actual Government of this country properly known as The United States of America and to the Constitutions established by The United States of America and its member States, are authorized and obligated to protect the American States and People and to use any necessary force to do so. They have our authorization and the duty and the obligation to arrest international criminals on our shores, including illegal immigrants, foreign diplomats, kidnappers, pirates, securities agents engaged in the bonding of living flesh, other human traffickers, members of the Bar Associations engaged in unlawful conversion and barratry, members of the Bar Associations engaged in the creation or enforcement of fraudulent or criminal patents, trademarks, and copyrights, Roman

Catholic priests and administrators operating in Breach of Trust, persons engaged in unlawful contracting processes, and anyone else who offers to do our country and our people harm. And no member of any military force of the United States nor of the United States of America is in any way empowered to attack, undermine, mis-characterize, misidentify, or unreasonably inconvenience any State of the Union nor are they nor any foreign subcontractors in their employ, enabled to attack, undermine, mis-characterize, misidentify, or unreasonably inconvenience any Lawful American Person, which would be and is in violation of their Constitutional Service Contracts, Geneva Conventions and Hague Conventions governing their operations here and abroad.

We, The United States of America, issue and publish and serve this Decree Over Mandate without apology. This outrageous circumstance has gone on for over two decades without meaningful correction.

We, as people, are not deceived nor are we deceiving. These Evils have been practiced in the sight of The Living God by those pretending to represent Him in the same way that they have practiced Evils in our names. We, the living people, who are formed by an Act of The Living God and who belong to Him only, who are not property of any earth-bound Father or Mother, who inherit the Earth and The Kingdom of Heaven, who are not subject to any religion, are here and now.

We affirm that what we have said herein is true, complete, correct, and not misleading under the penalty of perjury under the Public Law of The United States of America:

Decree Over Mandate

Anna von Reitz <avannavon@gmail.com>

Fri 10/18/2019 12:49 PM

To: Paul Stramer at EurekaDSL.net <pstramer@eurekadsl.net>

Decree Over Mandate

When we established the Constitutions --- Federal, Territorial, and Municipal, we delegated some of our established "Powers" to be exercised "for" us by others.

So, naturally, there had to be a "Delegator" of these "Powers" and there had to be stipulated "Delegates" receiving and exercising these "Powers" in our behalf.

As the Preambles of the Constitutions clearly state, the Delegation is made by the "People" of this country. The People are defined as the State Citizens and their State Governments. The State Governments in turn function together in international jurisdiction through their unincorporated Federation of States, doing business as The United States of America.

The United States of America is a Holding Company, and what it holds are all the rights and prerogatives of the sovereign states/States that they exercise in common in international and global jurisdiction.

Thus, The United States of America is the "Delegator" of the "Powers" shared out under the Constitutions.

Who are the "Delegates"?

The first Constitution (1787) called the Federal Constitution and/or "Original Equity Contract", delegates Powers to the Confederation of States formed March 1, 1781 and doing business as the States of America. The Powers assigned ran a gamut of responsibilities related to international business affairs, law enforcement, military operations, tax collection, and oversight.

The second Constitution (1789) called the Territorial Constitution delegates Powers to the British Territorial United States Government to exercise for us in the International Jurisdiction of the Sea. The Powers assigned relate largely to Naval Operations and international tariffs and trade policies.

The third Constitution (1790) called the Municipal Constitution delegates Powers to the Pope's Municipal (City-State) Government to exercise for us in the Global Jurisdiction of the Air. The Powers assigned relate to Postal Service, Patents, Trademarks, and similar functions.

So: Delegator: The United States of America -- our unincorporated Federation of States.

Delegates: (1) the Confederation of States formed March 1, 1781 doing business as the States of America -- - which has been inoperative since 1860; (2) the British Territorial United States Government --- a British Commonwealth Government doing business under our name as "the" United States of America; (3) the Pontiff's Roman Municipal Government doing business under our name as "the" United States.

When the States of America confederation ceased operations, the Delegated Powers assigned to it immediately reverted to the Delegator -- The United States of America, but, conveniently, nobody told us what was going on in the chaos and confusion after the Civil War.

The Grand Army of the Republic came in and began "administrating" everything under Admiralty Law on the Sea and General Order 100 -- The Lieber Code -- on the land, pending the Reconstruction of the States of America organization. And that is where it has remained -- in limbo -- for over 150 years, waiting for the Reconstruction to be completed.

Because we were operating in this offbeat fashion and other countries had to interact with us, they began operating in the same way. The Hague Conventions and the Geneva Conventions were adopted to facilitate this new organizational scheme in which countries were presumed to be occupied by Armed Forces awaiting the "return" of civilian government.

The Perpetrators of this circumstance --- Generals and Admirals who benefited from the exercise of political power not vouchsafed to them, and foreign governments that gained economic advantages by preying upon people and the assets belonging to the people of each country began a conspiracy of silence and collusion and formatted their operations through commercial corporations.

The Central Banks were established to expedite this process and various institutionalized fraud schemes were set up to make "harvesting" the value of our labor and other resources efficient. These have included the IRS/Internal Revenue Service, the fraudulent Land Titles schemes, the bogus Foreclosures, the

Conscription via military drafts and Uniformed Officers Codes, The Dead Baby Scam, and many more automated schemes controlled by patents and trademarks and other control systems.

And they are all kaput as of 14 October 2019.

We pulled the plug and issued our Decree Over Mandate on that day.

So what is a "Decree Over Mandate"?

Each Constitution creates a "Public Mandate" that granted sweeping powers to each of the Delegates ---- all to be exercised under conditions of strictest International Treaty and Trust Obligation. Such a Mandate is very powerful in keeping with the extensive Powers granted, but it remains Subject to Decree by the Delegator: The United States of America -- unincorporated.

The United States of America -- our unincorporated Federation of States -- summoned the States of the Union to Assemble and has overcome the obstacles placed in the way of Americans seeking to exercise their lawful authority. A majority of properly constituted States have now Assembled and The United States of America has issued a Decree Over Mandate ordering relief and directing the financial affairs of the country for the first time since the Civil War.

The first order of business beyond declaring the proper authority has been to bust the physical human trafficking and pedophile rings operating in our formerly defenseless international land jurisdiction.

The second order of business has been to set our financial affairs in order, locate and organize our assets, and declare all these foreign corporations bankrupt and subject to the Primary Creditors --- the People of this country and every other country on Earth.

The third order of business is to begin the process of securing remedy and relief for all those who have been enslaved --- specifically, an end to the false claims of debt, "protective" asset seizures, phony loans and mortgages, forced registration of assets and similar usurpation and oppression carried out against the living people of this country and this planet.

We have also nipped all threats of "Civil War" in the bud; both the Territorial and Municipal Corporations are ultimately under the Pope's control and ownership, and he cannot fight against himself. So we no longer have to put up with that threat and all the associated garbage. We know who is accountable and we will hold them accountable.

This action made possible by the tireless efforts of The American States Assembly organizers marks the onset of the Re-Venue of all physical assets to the possession of living people, the end of Corporate Feudalism, and the end of Martial Law being imposed on civilians in this country. The Reconstruction necessary to restore our fully functioning Federal Government will not be far behind.

If you have not yet declared your proper political status and stepped forward to serve your country, go to: www.TheAmericanStatesAssembly.net.

A complete jpeg copy of the Decree Over Mandate is now published and available (or soon will be) at: www.TheAmericanStatesAssembly.net and www.annavonreitz.com websites.

To All Principals, Agents, and Parties:

Since our First Decree Over Mandate we have continued the assembling of our States of the Union and have completed the necessary process to secure properly constituted Assemblies in all fifty (50) States of the Union. We are continuing the re-population of all our States necessitated by the mis-representations and False Registration processes engaged in by our erstwhile Federal Subcontractors operating the British Territorial United States Government and the Municipal United States Government.

We are attaching copies of Public Notices which have been published and issued this week. These Notices provide specific information for the Public and for the individuals and organizations so-addressed, and for the purposes at hand, are fully incorporated into this Second Decree Over Mandate providing similar information and instruction to the appropriate Principals and Parties for their prompt attention and implementation in response.

For convenience and better understanding, we shall separate our directions into sections and may address specific concerns to specific individuals and organizations within the context of this Second Decree Over Mandate.

Mis-characterization and False Registration of American Babies

We have discovered and fully researched and documented a loathsome process of False Registration of American babies taking place on our shores and at the hands of our British Territorial and Municipal Subcontractors.

This practice appears to have its first modern appearance and description in The Bounty Book published by King James 1 as part of a Anti-Reformation scheme by the Roman Catholic Church.

It has since been defined as a Capital Crime by both the Hague and Geneva Conventions and condemned generally by the United Nations Universal Declaration of Human Rights and is also specifically prohibited by Article IV of all three (3) Federal Constitutions.

The only quasi- Public Notice provided was addressed to inhabitants of the Municipal United States by President Franklin Delano Roosevelt in his First Inaugural Address as President of the United States--- by which we all understand, President of the Municipal Corporation providing governmental services to us under the provisions of The Constitution of the United States.

In his address, Roosevelt made veiled statements about an undisclosed "holy cause" and also made equally cryptic statements about "clearinghouse certificates". These obscure references made in his corporate capacity can in no way be considered any proper description of the scheme

he was in fact implementing -- neither to the Municipal inhabitants and employees he had power to directly affect, and certainly not to the General Public, either.

His scheme was in fact so criminal, so radical, so outrageously in opposition to any common sense of decency, banking, or modern political practice in this country that nobody could be expected to understand the meaning of his remarks and so they remained part of the record but not in any sense "fully disclosed" for the purposes of establishing a material contract of any kind with either the Public or the Municipal citizenry.

Nonetheless, Roosevelt and his criminal co-conspirators in the Municipal Congress carried through with their repugnant practices and claims against the Municipal citizenry as evidenced by the piecemeal passage of the content of the original Maternity Act via the Sheppard-Towner Act and later, by the passage of the openly repugnant Buck Act, in which the Municipal Congress claimed literal ownership of individuals, as in enslavement and non-consensual indentured servitude being imposed on federal citizens, presumably meaning all federal citizens of both classes --- both British Territorial United States (U.S.) Citizens and Municipal citizens of the United States.

By the time the Buck Act was first published in 1940, the Territorial and Municipal Governments were operating in full collusion under the terms of The Declaration of Interdependence of the Governments in The United States. An original copy of this Declaration has since come into our hands and it was clearly never disclosed to the Public.

We note here that the British Territorial (Commonwealth) Government has always been a political moiety of the Roman Catholic Church overseen by the British Monarch since the establishment of the concord between King John known as "Lackland" and Pope Innocent III.

As a result, both the Municipal United States Government (directly) and the Territorial Commonwealth Government (indirectly) both of which are Subcontractors with respect to our American Government, are owned and operated by the Pope, and any pretension of "war" or even serious contention between these two entities would be ridiculous ---even without The Declaration of Interdependence of the Governments in The United States.

Both of these incorporated "governmental services corporations" operating on our shores have played a part in the identity theft and credit fraud scheme against Americans.

The Territorial Government has illegally and immorally conscripted and licensed civilian physicians to work as "Uniformed Officers" which they have termed "Medical Doctors" and then, under pain of loss of their license to practice medicine (which they were never required to have anyway) has coerced them to take part in the False Registration of American babies as "presumed to be" U.S. Citizens, also presumed to be abandoned wards of the State of State.

The Municipal Government has then also enrolled these purported U.S. Citizens as citizens of the United States, classified them as Paupers and created infant decedent ESTATES in their Given Names.

This results in two fraudulent conveyances, first from the land jurisdiction of this country, and second, from the jurisdiction of the sea into commercial jurisdiction. It is a two-step fraud process designed to steal the identity of the victims, gain access to their assets, and then use those assets as collateral backing the debts of the Perpetrators.

The British Territorial United States Government dba "the" United States of America retained the equitable title to the victim's ESTATE, while the Municipal United States Government retained the legal title --- all without the knowledge or consent of the victim of this literally unconscionable contracting process applied to American babies in their cradles.

The use of DOG LATIN, euphemistically referred to as "American Sign Language" by the Perpetrators of these frauds, further amounts to fictitious conveyance of language and impersonation of the victims who are then dragged into commercial courts and corporate administrative tribunals under these false conveyances and false legal presumptions.

The American People subjected to this fraud have had no way of knowing or reacting to these attacks by their erstwhile employees, nor have they had any sensible public disclosure of the circumstance.

Overall, this circumstance results in Americans who have never left the shores of their country, who have never accepted any office of personhood, who have never been Wards of any Territorial franchise or incorporated State of State, who have never volunteered to accept any federal Municipal citizenship obligation at all, being deliberately mis-characterized as a Dual Citizen of both these foreign Subcontractors.

Millions of Americans have been fraudulently conveyed on paper to foreign jurisdictions just as surely as if they had been shanghaied and conscripted into the French Foreign Legion.

Americans born on our soil are not subject to the British Territorial Government, nor are they subject to the Municipal United States Government, yet millions of Americans have been subjected to this heinous and criminal collusion to deny and obscure their nationality and political status for profit. This has been done by corporations chartered in the United Kingdom and by the Pope's Municipal Government, in violation of our Treaties and Constitutions and the Commercial Service Contracts that both these Service Providers are obligated to honor.

Obviously, there must be an immediate correction of all claims and processes related to these False Registrations of American babies, the creation of intestate infant decedent estates in their

names, the improper inclusion of these estates in any bankruptcy proceedings, and a return of all purloined patents, titles, copyrights, trademarks, DNA, and other property owed to the victims of this profoundly criminal and repugnant scheme.

The Presumed Donors of these fraudulently constructed infant decedent estates actually stand under the protection of The United States of America, our unincorporated Federation of States, and we hereby repudiate, rescind, and renounce all undisclosed and unconscionable contracts, covenants, and agreements concocted "for" us by our employees, regardless of any signatures obtained, baptisms accepted, applications, enrollments, pledges, or other seeming obligations imposed under the color of these afore-described practices and presumptions.

We rebuke and cancel all Powers of Attorney resulting from these False Registrations and False Legal Presumptions, and require the Trustees to perform upon our actual Trust Indentures and to obey the Law of the Land established by our Forefathers without exception.

False Claims of Abeyance

It is well-known and well-documented that our Government is a government of the people, for the people, and by the people established upon the language and premises of the Geneva Bible. It is also well-known that our Union of States was first formed by unanimous Declaration published 4 July 1776, that our unincorporated Federation of States doing business as The United States of America was formed in September of 1776, and the Confederation of American States of States was formed five years later in 1781.

The so-called American Civil War was fought by business organizations known as "states of states", such as The State of New York, and can only be deemed a commercial mercenary conflict lacking the standing and character of any lawful war. Our States of the Union did not participate in this deplorable action at all, and this is fully borne out by the historical record.

We are at a loss to explain why the disappearance of the Confederation of these States of States after the end of the physical hostilities, was ever misunderstood by anyone as a cessation or abeyance of our government? Are we rendered bankrupt because our employees go bankrupt? Do we cease to exist when private businesses in our employment dissolve?

As anyone can observe, our Federation of States pre-dates the existence of any Confederation organization at all, and all duties and powers of the Confederation were re-statements of duties exercised first and foremost by the Federation of States. Does hiring someone to mow our lawn mean that we are not allowed to mow it ourselves? Are we under some divine prescription to reconstruct business entities that failed? Hardly.

We see that our British Subcontractors secretly launched their own "state of state" business organizations and substituted them for the American States of States without disclosure to us or explanation to the General Populace of this country ---- like cuckoo birds occupying our nest in Bad Faith and in violation of our Treaties, their Constitution, their commercial service agreements, and our clearly stated intent.

They usurped and presumed upon us and carried this fraud forward for five generations prior to being caught, red-handed, in possession of their Employer's property, making false claims against their Employer's assets and Good Name, and also claiming that our Government has been in "abeyance".

A government of, for, and by the people of a country is never in abeyance. It never ceases to function by definition. As long as a single American lives, America has a government. And so long as one American lives, and performs in the proper capacity, the Last Man Standing is owed performance and right of disposition.

Even if there is no longer a Holy See, even if the British Monarchy should fail, our right of disposition as the Last Man Standing to our venerable Constitutions remains.

Our government, for the information of those being addressed, is alive and well --- and is not vested in Washington, DC. Our government is not now and has never been in abeyance. It is present in the form of fifty (50) populated States and their respective State Assemblies and our unincorporated Federation, The United States of America, is still here conducting our business in international and global jurisdictions.

Our States are physical and actual, foreign and non-domestic with respect to all State of State organizations, including the Territorial State of State and Municipal STATE OF STATE organizations. Our States enjoy sovereign immunity and are tax exempt. The only law that pertains between ourselves and our foreign Federal Subcontractors is clearly stipulated and embodied by their Constitutional contracts, so there should be no confusion whatsoever about our standing and our identity as the lawful government of these United States.

General Notice of Non-Duplicity

The usurpations and liberties taken by our foreign Federal Subcontractors and their practice of using semantic deceits, especially similar names deceits, substituting one entity for another and making nonsense of verbal exchanges, and on some occasions allowing outright fraudulent misrepresentation of us and our interests, must be taken into account with respect to each and every action purportedly taken by us or for us.

It is, for example, to tell the difference between "The State of Georgia" and "the" State of Georgia and THE STATE OF GEORGIA in a purely verbal context.

In the same way, uneducated people may readily mistake a Scottish Commercial Corporation infringing upon our Good Name and Trademarks and doing business as THE UNITED STATES OF AMERICA for us, and think that they have contracts and obligations and property interests related to our government, when in fact, they do not.

In a few instances thus far, we have found interlopers using the actual name and style of our American Government, The United States of America, and signing us up to participate in endeavors and conventions that we have never even considered.

The rule that must be observed is to first consider whether or not the subject matter and issue is addressed by the respective Constitutions and whether or not any foreign Federal Subcontractor would have any reasonable claim to delegated authority. If not, any obligation and the underlying authority expressed may both be dismissed as null and void.

Between the interlopers substituting themselves for us, and unauthorized parties purportedly exercising delegated powers "for" us, we find it necessary to declare that none of this proliferation of duplicity has been authorized by us and that we are not accountable for it.

We have no contracts with any Municipal Corporation of the District of Columbia, UNITED STATES, INC., or USA, Inc.---- all our contracts are directly with the Holy See, the British Monarch, the Lord Mayor, and other actual sovereign governments and Persons.

Likewise, we have no contracts with Federal Agencies. These agencies are all subcontractors of our Subcontractors, which they have parlayed into an unaccountable and unelected quasi-governmental substructure for their own convenience, and which must logically be supported using their own resources, not ours.

We strenuously object to all Subcontractor practices and processes seeking to shuffle off responsibilities that have been contractually vouchsafed to them, and do not recognize any authority granted to federal agencies by our Subcontractors as anything pertaining to us or our delegation of Powers.

We protest the failure of our foreign Federal Subcontractors to assist and fully inform us regarding the status of the Reconstruction. We were given the impression that the Reconstruction was completed when in fact it was left unattended to, apparently to further facilitate fraud and privateering and usurpation against the States and People of this country.

We note that a great deal of abuse has centered around one small item: the Interstate Commerce Clause found in all three renditions of the Federal Constitutions. We note that as our States are all Nations the words "interstate" and "international" are interchangeable within the context of this clause, and word "commerce" applies only to business conducted between two incorporated business entities. It does not in any way apply to trade, domestic or international.

Internal Revenue Service/IRS Fraud and Abuse

The identity theft fraud scheme practiced against American babies serving to impersonate them as commercial franchises of the United States also served to bring their business interactions and transactions under the provisions of the Interstate Commerce Clause--- a result of the two-step constructive fraud described previously. All such legal presumptions predicated on identity theft and impersonation are null and void.

The rank and file Americans thus deprived and dis-served by their mis-directed Employees were never voluntarily, knowingly, or willingly operating as franchises of the Municipal United States, were not any species of federal employee, and their earnings should have never been classed as corporate "income". The one fraud led to the next fraud, and with it the false claims and presumptions of both the Territorial Internal Revenue Service and the Municipal IRS, which has led to widespread racketeering and crime, as millions of Americans have been harassed, railroaded through private, self-interested corporate tribunals disguised as "courts", and deprived of their earnings and private property.

These are criminal activities which have been perpetuated on our shores by those owing us good faith service, without explanation or excuse, all predicated on False Legal Presumptions based on False Registrations of American babies.

Regulatory Powers Over Substances

Another long-standing misunderstanding revolves around the granting of regulatory powers over the interstate manufacture, sale, and transportation of alcohol, tobacco, and firearms.

These three classes of federally regulated items were set aside and placed under federal supervision to help ensure public safety and to generate revenue to support the Federal Government. These provisions apply only to actual interstate manufacture, sale, or transport of these items and (1) do not apply to in-state activities and (2) do not extend to other classes of goods. We have had to repeatedly rebuff Federal Agencies that think they magically have regulatory powers over drugs and vitamins, crops, water and other commodities that are not under Federal Regulation.

We have also uncovered a totally falsified data base maintained by the IRS which maintains bogus biographies in Masterfiles kept under the names of Americans, seeking to further mischaracterize

them as Federal Citizens engaged in occupations subject to Federal Regulation of alcohol, tobacco, and firearms. This is yet another added identity theft and coercive racketeering scheme being practiced against Americans, seeking to create a basis for prosecution of Americans based on nothing but outright lies about them and their activities.

We have reason to believe that these vile practices have been used to convict literally millions of Americans of "evading" taxes that in fact they never owed, and have been used to justify murder of innocent people in Waco, Texas, the murder of American rancher, LaVoy Finicum, and the reckless endangerment of his family members. Just about any time and anywhere the BATF enforcement powers have been employed, they have been employed improperly and used to deprive Americans of their lives and property in coercive acts of terror. The FBI and CIA and other federal agency subcontractors have also been misdirected, misinformed, and misapplied.

The Holy See and the British Monarch and Lord Mayor, who are the Principals ultimately responsible for the activities of all these corporations on our shores, have turned a blind eye and so have the members of the Territorial and Municipal Congresses. We have ample proof of profiteering by these Principals and Agents connected to these criminal activities.

Securitization of Living Flesh – Enslavement and Peonage

Yet another result of the identity theft and political status mischaracterization scheme of our foreign Federal Subcontractors has led to the de facto enslavement and involuntary peonage of millions of Americans and the securitization of living flesh which is both illegal and unlawful, yet has been practiced by the Federal Reserve and the Depository Trust Company Corporation and its shareholder organizations, EMCC, MBSCC and GSCC, all of which have been restructured and re-identified and yet continue to reap the benefits of Franklin Delano Roosevelt's deceptions.

In Roosevelt's First Inaugural Address to the Municipal citizenry as President of the United States, he spoke of a "holy cause" because the Municipal United States is a theocracy and is operated by the Roman Catholic Church. He also spoke of "consecration" of the Municipal United States--- another word having religious connotations. And finally, he spoke of "clearinghouse certificates". What he was talking about was handing over the Municipal "citizens of the United States" --- mostly African Americans --- as chattel properties backing the debts of the Municipal Government.

The DTCC is the Clearinghouse for this disgusting trade of certification, securitization and bonding of living people, and its in-house Holding Company, Cede and Company, which is owned and operated by the Holy See, is the depository Holding Company housing the falsified Certificates of Live Birth which mischaracterize Americans as British Territorial United States Citizens. Acting on this known False Registration, the deplorables have authorized the creation of Municipal Corporation franchises and the issuance of Municipal bonds in our names.

Bonds as in bondage.

And we are, in fact, their Employers.

The absurdity and criminality of these practices does not need to be explained by any rational being, and the evils of enslavement and involuntary peonage do not need to be explained, either. Both enslavement and involuntary peonage have been condemned and outlawed worldwide since 1926, but here is the Roman Catholic Church, finagling behind the scenes to benefit itself and its partners in crime to promote both in the modern era.

That the Roman Catholic Church and its leaders have stooped so low as to engage in these practices is a staggering revelation when first confronted, but in fact, people mischaracterized as corporate TAXPAYERS in this country have been purposefully domiciled offshore in Puerto Rico, where the Commonwealth Government still allows the Spanish Law of the Inquisition to operate.

Millions of Americans of all walks of life and religious conviction have been prosecuted by the Inquisition masquerading as the IRS and the Internal Revenue Service, for the benefit of the Municipal Government and Territorial Governments, respectively---and ultimately, for the benefit of the Holy See and its cronies, including the British Monarch operating the Commonwealth Racket for the Pope.

The corrupt Church has collected these "income taxes" as "gift and estate taxes" and pretended that these assets were "voluntary donations" while using the Inquisition as an iron boot on the throats of the victims, and armed private security agents and colluding private "courts" to accomplish its objects.

We have the bank records and trails of evidence to prove that the Church benefited directly from this trade in human flesh and labor (enslavement) and that it exercised a complex kickback system of "revenue sharing" that involved major banks including the Bank of Canada, the Bank of New York Mellon and, of course, the Vatican Bank.

They have been hiding their activities behind the store front of the Church for over 800 years and now, they propose to move their operations and use the United Nations Organization as their new store front to hide their greed, cruelty, and corruption behind a façade of social caring and compassionate stewardship and cooperation.

This is practice of redefining people as corporate franchises and mischaracterizing their earnings as taxable corporate income is just one more variation of the identity theft scheme.

We estimate that of the 12 to 15% of our population that could by some stretch of the imagination be considered "citizens of the United States", none of them are aware of having been "pledged" as human chattel by FDR, and none were given any full disclosure at the time or at any time since.

The rest of our population was never subject to any of these claims or suppositions of contract at all--- and yet these violent criminals have attacked Americans and mischaracterized them as Municipal "TAXPAYERS", and subjected them to false commercial liens and levies, false wage and bank account garnishments, punitive "late fees", property seizures, and jail time.

It is clear that the Roman Catholic Church has functioned as a crime syndicate, at the same time it has functioned as a religious institution. It has enriched itself and its partners in crime via the loathsome practice of securitizing and bonding living people --- and they have done so under color of law.

They have done this egregious harm to millions of Americans and American businesses, even though they are perfectly well-aware of the Public Law and the requirements of their contracts with us, which clearly limit their sphere of authority to the one mile square within the capitol boundary stones of Washington, DC.

The Securities and Exchange Commission, the DTCC, the US Department of Commerce, its State of State franchise affiliates, the US Department of Transportation, the Government of Canada, and the afore-mentioned banks, have all been complicit in the scheme, and the share-holders and Successors of the share-holders--- EMCC, MBSCC, GSCC, and both the Federal Reserve and the IMF have benefited from collateralizing and securitizing the labor of American workers. They have all indulged in secretive enslavement activities and profited from them and must be liquidated and placed under new management, however, the idea of placing them under the management of the "US Treasury Department" --- whatever that means anymore --- must be met with an extremely jaundice eye.

The US Treasury Department has been one of the principal beneficiaries of the criminal racketeering and enslavement scheme just described and is uniquely responsible for using this mechanism to justify the issuance of "government" [service corporation] guaranteed "Treasury Bonds" which are then purchased as investments by the so-called Federal Reserve, which is yet another beneficiary of the take from this bizarre form of modern day feudalism. The IRS Agencies have been directly housed in the United States Treasury since the 1920's and functioned as a Bureau of this organization. Indeed, the Commissioner of Internal Revenue has been recognized as an Officer of the Territorial Government and given abundant resources to enforce this crime spree against Americans by the US Department of Justice.

Most recently, President Donald J. Trump operating in his capacity as President of “the” United States of America has moved to take control of the SEC and redefine the relationship with the Federal Reserve. Unfortunately, even this measure falls far short of solving the actual problem.

Their proposed solution to the dilemma is to issue new “Special Purpose Vehicles” (SPVs) which is simply re-naming and re-defining incorporated entities named after each one of us. For example, SPV’s named in the form JOHN MICHAEL DOE were understood to be Cestui Que Vie Estate Trusts; other named in the form JOHN M DOE were deemed to be Public Transmitting Utilities. And all of these “derivatives” have been attached to living people and living people have then been taxed and harassed and demeaned for the debts of these THINGS.

Slavery and involuntary peonage are still what they have always been no matter what you call it ----unlawful, immoral, and illegal. Calling a crime by a new name does not change the crime. Renaming a poppet used in an impersonation scheme an “SPV” and turning our courts into forums for barratry under color of law can never be excused.

The Stafford Act, War Powers and Civil Rights

Some people are under the impression that the Municipal or Territorial Congresses were imbued with the power to “suspend” the Constitutions via Presidential decree; this is a ridiculous presumption prohibited by the documents themselves, which clearly state that any other thing, such as legislation, seeming to change or abrogate the Constitution in question, is null and void with respect to us.

So what is this “Stafford Act” nonsense really about? The President of a corporation can order his employees to do what he pleases, and as the U.S. Citizens were never parties to the Constitutions and never in receipt of its guarantees, President Trump is free to suspend any “like” guarantees extended to U.S. Citizens via legislation, for example, the Civil Rights Act by which the Municipal Congress extended “Civil Rights” equal to the Natural and Unalienable Rights of Americans to Federal Citizens, howbeit, as privileges conferred by Congress and subject to be recalled by Congress or “suspended” by the President.

So any power invoked under the Stafford Act is precisely this kind of in-house, private, corporate business and actually has no effect on the Constitutions and guarantees that we, the American States and People are owed. Our run amok employees are just playing a shell game and attempting to usurp power over their employers by confusing us with their own ranks and attempting to enforce their legislative rules on people who are in no way obligated to obey.

This constructive fraud and deceit has similarly been used to assume that Americans are at war and subject to “War Powers” claimed by our Public Employees, who are clearly acting out of school and without our grant of delegated power to involve or presume upon us, harm us,

conscript us, or claim any such power related to us whatsoever. It's our Congress, not theirs, that has War Powers.

All and any mercenary conflicts engaged in as separate actions by our foreign Federal Subcontractors and the governmental services corporations which have been acting "in our names" and abusing our delegated powers must be viewed for exactly what they are, and the cost of any such adventurist schemes going forward and any remaining "war debts" accumulated by this fraudulent conveyance of language and false claim of empowerment needs to be charged back to the Pope and the Queen who are jointly responsible for the deplorable performance of the corporations they have chartered and unleashed on our shores.

Resolutions and Remedies

1. The False Registration of American babies must immediately and forever cease; any records kept of people being born in this country are to be simple records that admit their actual nationality and birthright political status and cannot be used to create false claims of foreign citizenship obligations or corporate or religious ownership interests;
2. Any records, i.e., Birth Certificates of any kind or source, Municipal or Territorial, must be lawfully converted to serve as records of people being born in this country without any other implication or obligation of citizenship or bonded servitude;
3. All Treasury Bonds issued under this system of de facto enslavement and peonage must be covered by the Pope and the Queen using their own resources and cannot be shifted to other assets, such as purloined American gold and silver, that are also owed to the victims of this abuse;
4. The Territorial Government must voluntarily resume its actual duties and drop the pretense of perpetual and still ongoing "National Emergency". The United States of America is here and operating and is competent to direct all functions that would have otherwise been conducted by the States of America Confederation. We are also competent to direct the operations of the Territorial and Municipal Governments on our shores--- a small part of such competence is being demonstrated right now;
5. The policies embraced by the foreign Federal Subcontractors, such as the principle of perpetual war, including the current preposterous "war" against strains of the Common Cold Virus, cannot be pursued on our shores. We consider that all costs involved including the \$6.2 Trillion appropriated by the Territorial Congress to fight this "war" must be assessed against the Pope and the Queen who have chartered these corporations, and that all such appropriations of our credit for purposes unstipulated by the actual Constitutions must be assessed against these Principals, and not used to indebt or entrap or further misrepresent the victims whose credit is being abused;
6. We have back-charged the entire amount of this "war" appropriation to the Queen and the Pope and attached a copy of the appropriate international lien. We have accepted

- this appropriation and all individual checks issued under it as gifts, not benefits, and certainly not any individual settlement of claims against the UNITED STATES, INC. and its bankruptcy. This surreptitious "offer" of \$300 billion to settle the debts owed to the American States and People is hereby firmly rebutted along with any such future attempts to establish any tacit or unilateral settlement of the Municipal bankruptcy via similar schemes of entrapment and misrepresentation, or any attempt to execute such a settlement via misappropriation of the victim's own credit as payment;
7. We require the removal of all records dependent upon the initial False Registration and Impersonation scam, including but not limited to the fictional IRS Masterfiles which have been created for the sole purpose of providing a fictional dossier on each American and used to falsely connect them to some activity involving federally regulated substances;
 8. We similarly require the release and surrender of all registrations pretending to license lawful activities of common right in this country, including the practice of law, medicine, marriage, travel, and conduct of business by Americans;
 9. We prohibit the use of any National Sales Tax and deny any pretended right to regulate or tax our private business transactions as a means to support any level of the government; the right to conduct business and trade is a Common Right of all people everywhere at all times, and any attempt to abridge this right is an obstruction to trade and an already well-recognized crime. We shall not entertain any proposals to enact a "national" sales or consumption tax on our shores and will not allow any purchase tracking system, public or private, to interfere with trade or privacy;
 10. We note that while our government provides for religious freedom for all people, religion cannot be used as a storefront for promotion of violence and crime on our shores. Anyone caught promoting violence in the name of their religion is to be arrested for insurrection and deported to a country espousing their chosen theocracy. Anyone caught causing actual harm to our people or our property in the name of their religion is to be prosecuted to the full extent permitted under the Public Law for their specific offenses;
 11. Beginning immediately, all former Municipal COURTS including UNITED STATES DISTRICT COURTS are lawfully converted back to functioning as part of the American Court System, with local COUNTY and STATE COURTS returning to practice of American Common Law, and UNITED STATES DISTRICT COURTS functioning as Postal District Courts;
 12. All judges and attorneys operating these courts are prohibited from maintaining any membership in or allegiance to the Bar Associations, and must tear up their Bar Cards and renounce their association with these organizations in order to be retained. All court employees including Clerks must be re-trained to operate in the realm of non-statutory law;

13. These lawfully converted state and county courts are to return to administration under the Public Law of The Ten Commandments, with the Geneva Bible accepted as the basis for all soil and land jurisdiction Public Law in this country;
14. All case law decided under process of American Common Law, including but not limited to the Jerome Daley Credit River Decision, are re-instated;
15. All Social Security applications related to Americans which were obtained under conditions of non-disclosure, deceit, and coercion and the veiled Powers of Attorney included in the SS-5 Form are cancelled for fraud, except in the case of actual Federal Employees who must now be given full disclosure regarding the terms of their employment; all pension and service guarantees owed to Americans must and will be honored in all cases;
16. We note that there is no possible need for any form of private taxation of individual earnings or activities that could be required to support the functions of any level of government; the result of decades of illegal graft and corruption has been the establishment of vast slush funds that self-generate immense amounts of dividends and earnings. When properly administered, these former slush funds more than provide for the support of all necessary government functions without recourse to taxation of any kind, and release us from the expense of maintaining any system of taxation in this country at all;
17. We require the return and control of all assets owed to the American States and People, including our land and soil assets free and clear of all mortgages, foreign titles, debts and encumbrances; our gold and silver and other precious metals and other material assets housed both on and offshore; our natural resources, our DNA records, our Good Names, our patents, copyrights, trademarks, stocks, bonds, and all other intellectual property assets naturally belonging to us, all insurances and Life Force Value Annuities based upon our resources, all that is ours by Nature and by Right;
18. The only debts engendered by our foreign Service Providers which we accept are those clearly stipulated by and performed under the Constitutional Agreements; all other expenses and appropriations are assumed to be the responsibility of the Pope or the Queen or the Lord Mayor, respectively. We have never offered to pay for mercenary wars for profit nor any other adventurist enterprise and we are not responsible for numerous other appropriations that have been made in our names, and predicated upon our assets, but without any valid supporting authority;
19. We have served Public Notice internationally for a period of years providing all interested Principals and Parties with an opportunity to contest our findings, correct their operations and assumptions, and take heed of their contractual obligations; we have exhausted all administrative remedies and published a more or less complete, though simplified, history of the crimes perpetuated upon us and we have provided the World Court with wet-ink copies of our included formal Affidavit of Probable Cause via the publication of "You Know Something is Wrong When....an American Affidavit of Probable Cause" issued in 2015;

20. The referenced Affidavit appears as the "J' Accuse" section of, "You Know Something is Wrong When....an American Affidavit of Probable Cause", which has been published and distributed on a worldwide basis and which gives additional detailed information, and which is hereby incorporated and included as part of this Second Decree Over Mandate;
21. A copy of the Public and Commercial Lien published as page 169 of this book is also provided as part of this Second Decree Over Mandate; we have literally provided full Public and Commercial Notice for almost five (5) years, supported by Uniform Commercial Code Liens and Non-Uniform Commercial Code Liens that have been established against the parent corporations and which appear upon the records of UCC District 500, Anchorage, Alaska;
22. We request and require Mr. Trump and his Administration to recoup these liens in our favor and to return the receipts to our collection depository, the mercantile account for The United States of America 1776 which we have asked Mr. Mnuchin to establish;
23. The immediate and permanent correction of the IRS and Internal Revenue Service operations on our shores and the establishment of clear prohibitions against them addressing Americans is required. The scrubbing of all "Federal Liens and Garnishments" improperly established by the IRS and Internal Revenue Service pertaining in any way to American people and property assets is required;
24. We have also published Due Notice and established international and commercial liens to secure the property and interests of the American States and People, including liens against all Municipal STATE OF STATE organizations, all Territorial State of State organizations, all Federal State Trusts, and all serving to return the associated purloined property assets to the States and People they belong to;
25. The nature of these international and commercial liens run a gamut from simple non-UCC liens to agricultural liens to fixture liens on our signatures appearing on all and any substrate, including electronic mediums;
26. In the course of our researches we have located the missing USB Receipt Book from 1860 onward; we found it buried and chopped up in the Bank of England. Lack of this "missing" record was the basis of the Green Hilton Memorial Agreement signed by President John F. Kennedy. All false claims of debt and all plans to employ the Belgian Asset Transfer System, nicknamed the B.E.A.S.T., like all plans to use RFID chips and Bar Codes to further institutionalize human slavery, are hereby prohibited as crime and the fruits of criminal incorporated syndicates which are also under demand to be liquidated;
27. The "New World Order" which is simply Corporate Feudalism and a perverted form of the "Old World Order" complete with Colonialism resuscitated and religious Inquisitions straight out of the Middle Ages, has already been outlawed through several centuries of progress. The adoption of such means as euphemistical "Special Purpose Vehicles" to promote such a scheme and the acceptance of the attendant reasoning supporting such schemes, would cancel out all the progress that has been made; continued corporate lawlessness would be rewarded and all attempts to restore actual order and good

- government would be thwarted by organizations enjoying bankruptcy protection on the public dole and having no lawful reason to exist apart from the Public Good;
28. The continuation of such practices in the modern age is an affront to all actual Law and Order, and also an affront to Nature and Nature's God. We do not propose to slide backward and by ignorance or sloth or failure to oppose contribute to evils that are already known and universally outlawed: press-ganging, unlawful conversion, kidnapping, slavery, involuntary peonage, genocide, theft, and fraud. We request and require our Federal Subcontractors to deliver good faith and service to the American States and People and to cease and desist all such criminal enterprises and repugnant legal presumptions on our shores;
 29. Whereupon we exercise our ownership interest to transfer all Municipal and Territorial Corporations and patents, stocks, bonds, and other certificates and receipts held under our auspices or created via the exercise of our delegated authorities back to our direct control, and have authorized Mr. Mnuchin to collect and rollover all such assets and deposits, first to the United States of America 1789 Account, and then to establish a new mercantile bank account in the name of The United States of America 1776 to act as the Depository Account for all reclaimed and recouped assets;
 30. We have also instructed Mr. Mnuchin to establish fifty subaccounts, one each for each actual State of the Union, and further instruct him to make these asset accounts directly accessible to our review and responsible administration without delay;
 31. Banking functions for The United States of America, apart from Audits, are under the authority of John Franklin Hein III and his Working Group. Mr. Mnuchin is instructed to employ the United States Treasury functions in support of the transition and to work with Mr. Hein to further establish the mercantile banking system and its deployment;
 32. All Americans who have been unjustly and inappropriately addressed by foreign private courts and corporate administrative tribunals, and who have been subjected to foreign forms of law based upon the False Registration Scam and related false records such as the IRS Masterfiles, and who are not violent criminals accused of actual and factual harm to others, or guilty of gross harm to the property of others, must be set free. Our actual Law does not allow for thought crimes or restrictions on the use of marijuana, for example. All offenses must be actual and factual torts suffered by actual people and/or their property assets. Except for cases of murder or permanent physical or mental disability, all Injured Parties must directly represent themselves in our courts;
 33. All Federal Employees must be properly instructed not to trespass upon our private property nor to address Americans under presumption of any Federal citizenship obligation. They must understand that they are not allowed to trespass on the land and soil of this country, nor allowed to importune the people to obey federal regulations concerning matters that pertain only to federal citizens under color of law. For example, they may not solicit participation in Social Security until and unless people knowingly and willingly and under conditions of full disclosure, accept Federal Employment contracts;

34. Upon the end of all Federal Employment contracts, in addition to retirement and completion of Tours of Duty in the military, the Foreign Subcontractors and their Officers are to assume that Americans have departed back to their home States and their birthright political status;
35. The Lord Mayor of the Inner City, London, is aware of his obligations under the 1814 Treaty of Ghent and numerous Treaties of Westminster held with us and is requested and required to clean up his own mess with respect to the mismanagement and misdirection of Bar Attorneys on our shores. He has cause to know that Bar Members are prohibited from holding any public office in any level of our government and have been so prohibited since 1819. They are subject to the loss of their citizenship and immediate deportation and confiscation of their assets otherwise. All Bar Attorneys are called upon to either: (1) vacate all pretended public offices voluntarily, or (2) be subject to permanent disbarment and recoupment of their insurance bonds and any public pensions, deportation, confiscation, and loss of citizenship protections;
36. We are foreclosing upon the charters of the commercial banks and stock brokerages which have sought to profit themselves from the enslavement of living people and theft of American assets that do not belong to them and we are invoking all the Treaties and Contracts which we hold with the Principals allowing this action for Cause;
37. We are establishing mercantile banks and directly issuing State Assembly Credit Union charters to replace the commercial banking institutions caught participating in the described crimes against humanity;
38. We are resuming a normal course of business and carriage accounting standards; the dishonest "Double Accrual Accounting System" adopted for the use of the Government Accounting Office (GAO) is to be discontinued; the hidden non-budgeted income streams and their administration by private corporations as "external investments" are to be fully exposed to public review, along with forensic audits of the Comprehensive Annual Financial Reports and subsidiary Annual Financial Reports to provide full disclosure to the American States and People;
39. The first Executive Order issued by Abraham Lincoln in March of 1863 known as General Order 100 and resulting in the adoption of the Lieber Code has been over-ridden and removed and Public Notice of this action by our lawful Government has been issued; the U.S. Territorial Government and the U.S. Military are subject to our civilian control.
40. The military bankers responsible for these deplorable acts and conditions have been sacked for Cause and shall never be eligible for rehire; they are barred from any further operations on our shores or pretensions of operating in our names or representing us in any matter whatsoever. The Federal Reserve is disbanded and foreclosed upon as a crime syndicate engaged in enslavement and peonage schemes, along with the DTCC acting as the clearinghouse for these offenses. Both are denied any function related to our government or representation of our people and must disgorge all assets purloined from Americans including all improperly constructed and construed labor contracts issued under the Miller Act, all confiscations enforced under the Buck Act, all Cestui Que

Vie Estates. All American assets are to be conveyed back to Mr. Mnuchin, and thence to be conveyed back to the actual Holders in Due Course without further delay or obfuscation;

41. President Donald Trump acting in the Office of Commander-in-Chief is called upon to take all necessary action and expend all necessary force to identify, locate, and remove all criminal elements within the Municipal and Territorial Governments, within the corporate business community, and within our borders;
42. President Trump is further empowered to locate and secure all American assets of all kinds wherever they may be located, including paper and Special Depository Accounts and so-called Legacy Trusts, pursuant to their return to the lawful owners; within reason and upon his own personal responsibility, he is authorized to access our assets and credit to accomplish this mandated activity and to support the logistics and cost of this transition back to a normal course of business;
43. As the Principal and Priority Creditors of the Municipal Corporations, including all commercial banks, we are declaring a permanent Mortgage Foreclosure Moratorium affecting all mortgages which have been misapplied to all public and private American holdings located anywhere within our States;
44. We are likewise seizing all foreign land titles and trust accounts owed to Americans as Public Trusts, including but not limited to all copyrighted and otherwise protected land descriptions, street designations, and all allocation and tax identification system designations that have been improperly imposed under color of law;
45. We are requesting and requiring that Mr. Trump and his Administration fully inform the United States Trustees;
46. We are issuing proper private Identifications, Travel Cards, Private Auto Plates, and Passports for our American State Nationals and American State Citizens under our own sovereign authority. These documents carry the open seal of The United States of America, not the closed seal of "the" United States of America.
47. We are using unique Independent Living Being codes that are recorded by private internal State Assembly blockchain; we request and require that all Public Employees at all levels of government immediately stand down and recognize the separate and valid and paramount political status of these Americans whose identity and standing has been verified by the State Assemblies;
48. We have, as of May 22, 2015, re-commissioned the Federal Marshals, and have re-named their service as The Continental Marshals Service. These are Peacekeeping Officers of The United States of America, occupying the international land jurisdiction and providing enforcement of international law, including the protection of our Post Offices and Post Roads, prevention of international trespass, human trafficking, drug trafficking, smuggling, counterfeiting, interstate bank fraud, infringement of private copyrights, unlawful conversion, unlawful conscription and confiscation, kidnapping, illegal manufacture, sale, or transport of federally controlled substances, racketeering, extortion, and similar crimes occurring within our land jurisdiction. As peacekeeping

- officers they outrank all private security forces and LEOs operating within their established Postal District Areas. They are being issued Public Commissions directly under the authority of The United States of America and all Federal Officers and Agents are required and requested to assist them when and if they require assistance;
49. The assembly of the States of the Union also results in the self-evident population of our Counties and the occupation of the actual County Offices, including the Office of the County Sheriff, who is the highest elected peacekeeping official in this country; it is to be understood that within the physical boundaries of each county, the County Sheriff elected by the American State Nationals living within that county outranks all Law Enforcement Officers, all Federal Agents, and all Private Security Officers;
 50. All other "National Elections" occurring within our borders are suspended for four years effective immediately, to allow for the identification and education of all Americans and for the orderly recording of their chosen political status preparatory to the resumption of normal Public Elections in this country—which have not occurred since 1860;
 51. All current Officers of the Territorial Government who are not members of the Bar Association may continue to serve during this time period, including President Trump. We do not feel that it is appropriate for foreign political lobbies or Scottish commercial corporations which are infringing on our Good Name and Trademarks, to pretend to be our government, and we are accordingly suspending political party activities. There will not be a resumption of these activities until they are openly recognized for what they are ----- private corporate shareholder elections--- and people are fully informed about the consequences of enfranchisement as voters;
 52. The Municipal United States Government, together with its franchises, violated the limits of its charter established via The Constitution of the United States, which has led to its liquidation. There should be no confusion or panic related to this. All corporations are obligated to obey their charters. In view of the horrible abuse that the Municipal Congress has inflicted upon those they were elected to serve in Good Faith, we have requested an entirely new administration of the Municipal Government by members of our Congress, in accordance with the actual limitations of the Municipal Government, and/or the voluntary surrender of the vacated Capitol to The United States under the administration of The United States of America;
 53. The Territorial United States Government, together with its franchises, has operated as a self-proclaimed democracy, but has never yet had sufficient participation of eligible voters to establish an actual majority mandate validating its actions;
 54. We are therefore present as the only lawful civilian government of, for, and by the people of this country, the original and only actual government empowered to act for this country and to properly direct the activities of our Public Employees and Federal Subcontractors in the accomplishment and administration of their duties;
 55. There is no other proven, knowledgeable, encamped, and demonstrable civilian government authority in evidence, much less is there any other properly defined and declared and constituted civilian population in evidence. The United States of America

- holds precedent and prior claim and we note that all international affairs conducted have been conducted under our seals and auspices for over two hundred years, so our appearance and our ability to assemble our States of the Union is not a matter subject to remark or suspicion by our Employees;
56. We call upon the Trump Administration and all military officers to support the actual civilian government and to help bring an end to the criminality and corruption that has infested our country for six generations, and most particularly, an end to the Kingdom of Lies that has been operating as if it were our government. As can readily be observed the entire power structure concocted in collusion by these foreign commercial corporations in the business of providing "governmental services" was funded and enforced on the basis of False Registration of American babies and other outright lies;
 57. We are now presented with the Territorial Government's declaration of a "National Emergency" in response to the Common Cold. Our government has not declared any such emergency and we do not expect to have our trade obstructed and our commercial interests in all Municipal Corporations gainsaid;
 58. We have called upon the Trump Administration and all other Principals and Parties to bring their War Against the Common Cold to a conclusion. The diversion has self-evidently failed and the continuing false claims of the Scottish Interloper infringing on our Good Name and Trademarks and operating "as" THE UNITED STATES OF AMERICA, have been rebutted;
 59. We have notified the independent Government of the Philippines of our ownership of their land jurisdiction assets and the American gold and other precious metals left in their care by the first iteration of the Scottish Interlopers fraudulently doing business "in our name".
 60. We are amenable to returning the land of the Philippine Islands to the Filipino People upon the release and return of our gold and other precious metals stored there and also kept under their custodianship agreements in Indonesia and elsewhere. We note that no member of the Territorial or Municipal United States Governments has the standing to release our land claims against the Philippines nor to accept the return of our gold and other precious metals assets nor to settle our claims against the bankrupt Municipal Corporations "for" us.
 61. We note that the incorporated perpetrators of these many crimes against us have, again, mischaracterized our Special Deposits as abandoned property and also have pretended an interest in what they call our "Legacy Trusts". Nothing could be further from the truth. These incorporated entities are not our Trustees and we have not abandoned our assets to their custodial care.
 62. Mr. Trump is instructed, requested, and required as the Commander-in-Chief of our Armed Forces to protect our persons and secure our assets for us and Mr. Mnuchin and Mr. Pompeo are similarly instructed as Interpol Officers to do the same as part of their global commitment to Law and Order;

63. The military and central bankers have attempted to bail themselves in via fraudulent claims against our private and public assets, including our interest in the Municipal franchises established in our unique names as Cestui Que Vie Trusts, our ownership position with respect to the bankrupt Municipal Commercial Corporations, and our Special Deposits in banks around the world; we have seldom seen a more epic example of Breach of Trust;
64. If left unopposed this situation would have left the Territorial Government buying out our interests in Municipal Corporations we already own using our own credit to do so. This "offer" is comparable to having a thief rob one pocket, and then use the largesse gained by the theft to finance the theft of your other assets. This is why the military bankers have been sacked and why the Central Bank purchases by the Federal Reserve are under forced commitment and also under our direct orders to Mr. Mnuchin and Mr. Trump. We do not intend to be further abused by either Federal Subcontractor.
65. We trust that the content of this Second Decree Over Mandate is thoroughly intelligible to everyone reading it and that the content of the attached Public Notices is also well-within the comprehension of all those being addressed. Any questions or rebuttals may be addressed to us directly in writing in care of: Box 520994, Big Lake, Alaska, 99652 and such explicit written rebuttal shall be the only means of remonstrance to any of these remedies. So said, so signed, so sealed this 29th day of March in the year of 2020:

By: James Clinton Belcher  Head of State

To All Principals, Parties, and Agents:

This is our Third Decree Over Mandate addressed to the concerned Principals and their Corporations and their corporate officers, including the responsible offices and Officers of Interpol.

The American People have properly declared their political status since 1776, have created public record or the same, and have assembled their State Assemblies in all fifty (50) States of the Union. The Federation of States known as The United States of America [Unincorporated] is fully populated and demanding delegation of power over all public trusts and subject corporations, including those bankrupt corporations listed here: <https://www.uscourts.gov/report-name/bankruptcy-filings> and all Personal/PERSONAL franchises thereof.

The purportedly long-lost American landlords have returned home and as the Priority Creditors have brought forward their Sovereign Letters Patent as of November 2015 and have established both Notice and Lien pertaining to all Municipal and Territorial assets on our shores via registration at sea and subsequent recording upon the land.

We are the Priority Creditors, owed all right, title and interest in these and all other corporate holdings created under our delegated authorities, held in trust, or assigned under bankruptcy or probate proceedings related to presumed Secondaries and their long term mis-handling of our assets.

If the lawful inheritor is found alive, all issuance of his estate must be made whole, and if the assets of an estate are found in the possession of pirates, no change of natural ownership, right, title or interest occurs.

All claims on abandonment are removed and rebutted, and the presumed Trustees, the Pope, the Queen, and both Houses of the United States Congress, have been and are given full notice via the persons of their leaders.

Notice Concerning Article 9, Uniform Commercial Code Changes

Please note the attempt to change definitions so as to defraud and deprive the Priority Secured Parties by changing the the Law/legal Definitions of the Uniform Commercial Code again: UCC § 9-607 - 9-610 to a brand new legal term---- "Investment control".

The Banks did not invest anything in people, they have only attempted to extract all the assets owed to people --- HJR192 credits, \$IOU's, Trust, Bond, Gold, Slavery fund, etc: and we counter-offer by observing the facts and placing an Estoppel en Pais upon all assets and Notice to all Parties and Principals: alterations of the UCC have no retroactive force or effect.

Unfortunately for the banks and their minions in the Bar Associations, we are not accepting this new definition for any purpose related to us or our pre-existing claims. We are already grand-fathered in with all the living people already ex-tracted from any obligation or interpretation or representation by any foreign Trustees whatsoever, immune from any act by pretended Agents acting as Executors de son Tort, and we are also set free of any Legal Presumption of death, incompetence, or voluntary personation.

Please note: Cornell.edu just recently published the changed legal definition of UCC 9-607... to "Investment Control". The operative prior definitions that began in 2015 are referenced below. The definitions we employed were in effect prior to 2015.

advance.lexis.com › lpadocument

Uniform Commercial Code § 9-607. Collection and Enforcement by Secured Party, NY CLS UCC § 9-607. Summary. (a) Collection and enforcement generally.

The self-service which is self-evident and criminal in these attempts to re-write and redefine binding contractual obligations so as to defraud and deprive billions of people for the sake of criminal banks deserves no further comment except for this:

The version of UCC in effect when we first began this process is the version that applies to all our Notice and Lien transactions since and is not altered by any alteration of the words and terms of subsequent renditions of the Uniform Commercial Code. We are grandfathered in and do not accept these changes and assumptions of debt or redefinition of contract.

Notice to Principals is Notice to Agents and Notice to Agents is Notice to Principals.

We also note the "Davos Manifesto" of the World Economic Forum. It is so nice to know that the guilty parties are feeling some remorse and seeing some urgent need to reform their otherwise unbridled abuse of living people for the sake of the Kingdom of the Dead.

We, the living people, and our States, own all incorporated entities standing under our charters or abusing our good names and trademarks. That includes Black Rock, Inc. and all of its various subsidiaries.

The Holy See has forfeited its position in this regard by not enforcing the plainly stated requirement that all incorporated entities may only be formed and operated for "lawful purposes" ---- not "legal" purposes.

Any presumption that we are asleep, ignorant, or unaware needs to be jettisoned along with all the corporate claims against the assets of living people based on fraud and fraudulent non-existent "investments".

The banks set up all these False Registrations and False Claims with malice aforethought. They knew what they were doing, and they knew the consequences--- and they did it anyway, in disrespect of life, in violation of sacred trust, solemn treaties, commercial contract obligations, and Public Law.

It is what it is. Crime. Fraud. Illegal, immoral, unlawful securitization of living flesh. Involuntary servitude. Peonage. Enslavement. Inland piracy. You can't expect to avoid that reality by thinking up a

new legal term, pretending that banks made investments that they didn't make, making up new terms of art to alter the Uniform Commercial Code after the fact or offering to stand as Trustees and Executors for us, with no lawful or even conscionable contract backing these actions.

We have no contracts with any incorporated entity at all. None. All of our contracts are directly with the Principals -- the Holy See, the Pope, the Queen, the Lord Mayor of London.

We decline the offer to contract with the changes offered to Article 9 of the Uniform Commercial Code, and counter by offering that the banks clean up their act and do what we told them to do five years ago: do a lawful conversion translating debt to credit owed to everyone on this planet, individually, severally, and collectively.

Return the Special Deposits and "Legacy Trusts" whence they came. Admit that the securitization of flesh and labor amounts to press-ganging, involuntary servitude, and enslavement --- all of which have been both unlawful and illegal in nearly all countries and domains for decades.

Admit that the non-consensual securitization of mortgages is illegal and unlawful, too. Admit that every transaction entered into the MERS process was non-consensual. Admit that the banks and the SEC and other "government oversight" organizations have failed their public trust and violated their charters and dishonored their obligations.

Admit that these venal practices have harmed hundreds of millions of innocent people and that the banks and the SEC and the other purported "oversight" organizations worldwide are richly to blame.

Admit that Americans-- except those who were actually employed by the Federal Government or those knowingly and willingly and under conditions of full disclosure agreed to adopt Federal citizenship obligations--never received "federal income" and never owed any "federal income tax", either.

Admit that the banks have engaged in fraudulent advertising activities, including advertising "home loans" when in fact, they were soliciting for people to loan their homes and other assets to the banks, so that the banks could loan credit based on the victim's assets and thereby profit themselves at the expense of the "presumed" donor, without ever providing any equitable return to the victims of this gross criminal fraud and deceit.

Admit that Americans never had any viable or fully disclosed contracts with any of the foreign-sponsored "governmental services corporations" at all; our contracts are directly with the Principals--- the Pope and the Queen and the Lord Mayor, who failed their Due Diligence and the Trust owed to us.

Part Two -- Settlement of UNITED STATES, INC.

We have plainly recognized the closure of the bankruptcy of the UNITED STATES, INC. and the ninety (90) day vacancy of Washington, DC required. We have also plainly told you all that we receive back, accept, and acknowledge all rights and delegated powers and properties that are naturally ours by Operation of Law, including possession of the grounds and improvements invested in the Capitol City known as the Municipality of Washington, DC, the District of Columbia, and its environs, and we do not approve, allow, or accept any other disposition or representation of our position. You must all deal directly with us. No other organization is lawfully or legally entitled to represent us or our interests in this matter.

The United States of America --- Unincorporated ---is the Holding Company for all mutually held powers of the American States and People in foreign jurisdictions. The failure or compromise of the States of America Confederation merely returns all delegated roles and responsibilities to The United States of

America by the same Operation of Law. We are the only standing and actual Government of these United States formed 1776, and we are presenting ourselves without representation.

Part Three – Corona Virus

We recognize that this entire “war” against the Common Cold Virus is a simulated war exercise staged on our shores, with the primary aim of accessing defense funding to keep “the” USA, Inc. functioning during the above-referenced ninety (90) day shut-down of Washington, DC.

We have very clearly said that this government and these United States are not under any declaration of emergency related to this sad and sorry situation. These are foreign Federal service providers and when our government is in Session, their condition is extraneous.

The daily inconvenience and loss to our businesses must be compensated by the Principals responsible and all further attempts to promote forced vaccination on our shores must cease. This is our country and these are our people--- False Registrations, lies, and constructive fraud notwithstanding.

Our States are open for business. Mr. Trump and the Queen and the Lord Mayor are welcome to pay their own debts and suffer their own corporate reorganizations.

The visible facts have established that the Government of Westminster has claimed responsibility for the entire Covid-19 and 5G testing debacle and should accordingly be charged for it; we hold them commercially and personally responsible for the trillions of dollars-worth of damage done to the world economy.

We further recognize this as a violation of the ENMOD Treaties and the G202-P3 Treaty.

Our people and our government stand united against all plans to force vaccinations or RFID technologies of any kind on anyone, ever. We are fully aware of the criminal plans of men like Bill Gates and Anthony Fauci seeking to enrich themselves and promote more Draconian controls over the general population by abuse of Artificial Intelligence technology and our reply is to issue International Arrest Warrants against these individual corporate and Uniformed Officers and those organizations promoting this bizarre and destructive Anti-Human Agenda.

We have five (5) technologies competent to destroy all varieties of SARS viruses, including all Corona Viruses. If anyone needs such technology, they are invited to contact us. Our anti-SARS technologies are proven, inexpensive, and non-invasive.

We wish for prompt and appropriate action from all Parties and Principals amounting to full cooperation and compliance, release of American assets and persons from False Registration and illegal bonding and securitization processes and Executor Presumptions, plus cessation of all simulated war exercises on our shores.

Our Government has not declared any “Emergency” nor any “war” on the Common Cold. This entire circus is being promoted as a self-interested scam by our erstwhile Federal Employees and it must be limited in scope specifically to them and their activities only.

Our States are open for business and any State of State or Corporation interfering in our agriculture and our harvest will be held individually and commercially 100% liable for all losses and damages, plus 3 times criminal damages for all such losses. Any corporate officer promoting any such wastage on our shores or promoting unnecessary foreign imports shall be subject to arrest for pillaging under the International Code of Military Justice and under the provisions of Title X of the US Code and subject to Public Hanging.

We trust that this message has been heard loud and clear. Everyone in this country is under Public Law.

All American assets are to be returned to The United States of America, and to the Several States and People of this country and are not to be distributed by or retained by foreign trustees or organizations merely claiming to be our agents or representatives.

We also wish for an end of pretensions regarding "The Rule of Law", which is a smug and inappropriate reference to the court rules and not the Public Law which we are owed and which we fully mean to enforce against all and any parties who have abused the Public Law on our shores. Make haste to make peace with your brother, for our Government is in Session, and so are our courts.

Those corporations and persons that have abused the Public Trust must reconsider their position, especially as regards their genocidal activities abusing Artificial Intelligence, Electromagnetic Radiation, and Health Care modalities, including vaccination programs and kickbacks to doctors who have been illegally conscripted and licensed by the same perpetrators.

We are not overstating or over-emphasizing any part of this decree, but openly include it as part of the research and results already referenced and incorporated in full as our published affidavit of probable cause, which has been published and available worldwide since 2015 and which is plainly stated on pages 222-264, Subtitled - J'accuse --- of our book, "You Know Something is Wrong When....An American Affidavit of Probable Cause" and we quote:

"We claim all assets of the Continental United States, all trusts, utilities, copyrights, patents, franchises, subdivisions, municipalities, land and assets of the land held in trust, insurances, inheritances, stocks, bonds, securities, mortgages, titles, and profit derived from the assets of the Continental United States and from our own assets, including our labor, and we Will a just and proportionate like-interest to all those who have been born on the land of the Continental United States and who are owed both their private and public property interests returned and set free and clear of fraudulent debt, claims, and conveyances, including all deeds and titles to land and land assets held under color of law by corporate franchises operating deceptively as States of States and under the given names of living people, release of all mortgages and other dubious maritime contracts and salvage liens tainted by fraud, return of all Promissory Notes obtained under conditions of non-disclosure and semantic deceit, and settlement of all debts held against us, our fifty (50) geographically defined States, and the land jurisdiction and assets of the Continental United States in favor of (1) the living inhabitants and our own private estates and all similar estates of living people inhabiting the land jurisdiction of the Several States on the land; (2) the Alaska State and similar States geographically described and having actual substance; and (3) the Continental United States as a whole;....." pgs. 260-261.

The published affidavit is available on Amazon.com, Author search: Anna Maria Riezinger and James Clinton Belcher, witnessed, published, and issued June 20th, 2015.

Additional public notices, liens and extractions stand on the public records provided by the Alaska Department of Natural Resources, Uniform Commercial Code Unit 500, Anchorage, Alaska, and the Palmer Recording District of Alaska.

These extensive and fully published records establish our presence and our intention and the basis of our claims going back more than a decade, to 2008, when these subjects were first breached with Pope Benedict XVI.

Any continuance or pretense that we are not present or that we are represented by agents or subcontractors of any kind must be disallowed and the truth of the matter accepted by all parties and Principals.

We have been the victims of Breach of Trust, deceit, non-disclosure, usurpation, unconscionable contracting processes, press-ganging, conscription, illegal licensing, identity theft, human trafficking, genocide, involuntary servitude, unlawful conversion, impersonation, conspiracy against our constitutions, inland piracy, enslavement, kidnapping, and many, many other crimes all pursued under the corporate veil provided by the victims of this piratical scheme and executed by our Federal Employees, who were in turn misdirected by the foreign Principals responsible.

There's a hundred and fifty years-worth of blame to go around, but it must all come to a stop.

The lawful assets must be returned to the lawful owners without further excuse or obfuscation by anyone, including the courts.

So said, so signed, and so sealed this 7th day of May in the year of 2020:

James Clinton Belcher, Head of State

The United States of America

Anna Maria Riezinger, Fiduciary

Enclosures: Third and Fourth Arrest Orders

*****The remainder of this page and the backs of all pages remain blank and may only be impressed with certifications of authenticity.*****

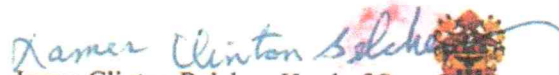

Fourth Emergency Arrest Order
Issued April 10, 2020
Via: RE 162 265 218 US

President Donald Trump, acting as Commander-in-Chief, you are requested and required to immediately arrest Dr. Anthony Fauci, currently employed by the NIH and affiliated with the Center for Disease Control, and his colleague, Dr. Birx, and to retain them to be bound over for prosecution under the Code of Military Justice as accomplices to Bill Gates, Pirbright Institute, Wellcome Trust, DARPA, and other co-conspirators who have engineered the Corona 19 Virus and promoted release of the virus for their own unjust empowerment and enrichment as purveyors of vaccines. There is more than enough probable cause to link all parties to a genocidal conspiracy and capital level crimes against humanity.

Drs. Fauci and Birx have been lead researchers into HIV Glycoprotein 120 structure and function since 1986. This specific protein has been coded artificially into the Covid-19 Virus, a matter of precise sequencing of 885 pairs of amino acids --- which is statistically impossible to do without purposeful laboratory manipulation. If Drs. Fauci and Birx didn't do the actual work, they almost certainly collaborated with and supported those who did.

The apparent motive was to reduce the population so as to avoid paying back debts owed to the victims, to collect life insurance placed on the victims, to promote coercive control of the world population, and to profit from the production and sale of vaccines laced with more poisons and Microchips [microdots] designed to invasively control people. These repugnant activities must be opposed and punished with all due determination and haste.

Fifth Emergency Arrest Order
Issued May 7, 2020
Via: RE 162 265 218 US

President Donald Trump, acting as Commander-in-Chief, you are requested and required to immediately arrest Mr. William "Bill" Gates, former CEO of Microsoft, currently acting in various capacities, and to bind him over for prosecution under the Military Justice Code. There is more than enough probable cause to link Mr. Gates and The Bill and Melinda Gates Foundation to a genocidal conspiracy promoting capital level crimes against humanity.

The Government of India and various governments in Africa have begun prosecution and extradition proceedings against Mr. Gates, and in view of the evidence, we feel that it is the duty of our government to assist in the prosecution of the crimes that have been alleged. We have found probable cause implicating Mr. Gates in the abuse of AI Technology and medical profiteering.

The apparent motive was to reduce the world population, to promote coercive externalized control of individuals, and to profit from the production and sale of vaccines containing Microdots laced with Luciferase, an alien-based enzyme obtained in violation of the G2O2-P3 Treaty, and designed to alienate people from their freewill in contravention of Universal Law. These repugnant activities must be opposed without quarter and punished to the full extent of the law invoked upon corporate Officers engaged in piracy and genocide on the High Seas.

Proceed with Due Caution: we have reason to believe that Mr. Gates has been violently compromised and is acting under induced delusion.

Addendum Attached to Third Decree Over Mandate:

Among the many other serious mis-carriages of justice and economic and civilian and financial abuses, perhaps none is more pernicious than the "Failure to Settle" accounts at the DTCC-- accounts which should never have been created in the first place, based on "Clearinghouse Certificates" that should never have been issued, either, and which were improperly solicited under conditions of semantic deceit and non-disclosure to promote enslavement and peonage.

The first modern day abuses of this kind occurred in the 1720's with the issuance of false bottomry bonds on "Vessels" named after people. Nothing has changed much, as this same filthy system of false claims in commerce commingling with the Admiralty has merely been reinterpreted to create so-called "Special Purpose Vehicles" named after people--- and to the same ends: fraud against the Innocent and fiscal mayhem.

We protest all of this chicanery in the most forceful terms possible, and with the tide of historical justice and case law on our side. These practices have to be brought to an immediate and permanent end.

Once the parent Cestui Que Vie ESTATE trusts were created in our names they were removed to Puerto Rico "for safekeeping", just like the American gold was removed to the Philippines "for safekeeping" --- and entered into a generation-skipping trust fraud scheme. This effectively prevented the victims from accessing their own assets and sequestered the investment receipts away in giant slush funds and pension funds operated by the Perpetrators for their own benefit.

When squarely confronted with their base dishonesty, the response of the Vatican was to move their offshore operations from Puerto Rico to the Mariana Islands, and set up the same cozy arrangement they had in Puerto Rico --- allowing them to warehouse bogus ESTATES and PUBLIC TRANSMITTING UTILITIES and PUBLIC CHARITABLE TRUSTS and LLCs named after Americans who were never Wards of the [Territorial] State of States, and never "citizens of the United States" either --- in the Marianas, and continue to prosecute them under the Spanish Law of the Inquisition.

The essence of our Breach of Trust Assessment against our Trustees and Fellow-Principals including the Pope, the Queen, and the Lord Mayor of London includes but is not limited to all the aforementioned fraud, losses as a result of the removal of our gold, losses as a result of tax fraud, losses as a result of probate fraud, losses as a result of bankruptcy fraud, losses as a result of court cases tried under False Legal Presumptions, losses resulting from subjection to foreign and inappropriate forms of law, losses resulting from pernicious and habitual violation of the Logan Act, losses resulting from armed Racketeering and Inland Piracy on our shores, losses resulting

from misdirection of our employees acting under Delegated Authority, and misapplication of our Armed Forces.

We have no contract with the offending corporations, some of which have been chartered under our auspices via the same Principals operating in Breach of Trust, all of which have been operated as Assigns and allowed to run wild on our shores without supervision and without oversight.

The sum total effect has been the conspiratorial evasion of the obligations of these foreign Principals via the abuse of our Mandates and this has resulted in their own unjust enrichment.

It has also resulted in a pernicious confusion about who is who and what is what, as they have been operating "in our names" or a facsimile thereof, in this outrageously abusive way for over a century without the population of this country being properly educated about the identities of the Principals and Parties engaged by and created by the Constitutional Agreements.

In addition to engaging in all the aforementioned practices and schemes against their lawful Employers, the responsible Parties and Principals failed to provide promised remedy and made it impossible for average people to ever obtain relief from House Joint Resolution 192 and the resulting Public Law 73-10. They have similarly "blocked" all remedy that should be available to the victims of these crimes via settlement through the DTCC.

The rampant money laundering and other evils attendant upon these criminal Breaches of Trust can be readily discovered by competent external financial and fiscal auditing. Just one (1) egregious example which has been brought forward by Third Parties is explained below, and this is by no means the only such example. A similar auditing of MERS transactions would uncover trillions more in leveraged and derivative fraud receipts, abuses by the banks of customer's signature authority, re-selling of cancelled Promissory Notes, imposition of Mortgage obligations on Exempt Parties, theft by Foreclosure upon such mortgages, issuance of fraudulent securities to investors, pillaging of pension funds, and sale of securities based on living flesh and even the sale of baptismal certificates promoted as "souls for sale" ---all this and similar grotesque abuses--- have been practiced upon a peaceful civilian population deliberately mis-characterized and genocided on paper in violation of both the Hague and Geneva Conventions.

These evils practiced against the American People have been liberally distributed around the world until virtually every country on Earth has been bought, sold, traded, indebted, and enslaved in a Corporatist Fantasyland based on nothing more than telling Big Lies, trading on assets to which the traders have no claim, and making up phony stocks and bonds and selling of illegal securities.

The people of Germany, England, Ireland, Scotland, and Wales have suffered the longest from this scourge of criminality, and soon thereafter, the Americans, the Australians, Canadians, Indians (the Raj), South Africans and others harmed by the parasitic Commonwealth and British Territorial regimes, all aimed at preserving slavery, colonialism, and feudalism recast as a form of Corporate Feudalism, in which men could be bought and sold and reduced to Serfdom by the very corporations they allowed to exist and provided with Public Charters.

Every single one of you reading this know that these are both crimes and sins.

We also include the text of a letter thought to be written by former IRS Tax Commissioner Egger and distributed to the District Directors of the IRS as described in the text itself. Whether this is

original or written by Commissioner Egger is immaterial, as it accurately describes the self-evident result of the referenced case. The IRS knew more than thirty (30) years ago that it was collecting taxes from the American People under False Presumptions, and had been doing so since 1913, and their response? To hide the remedy. Again.

As the lawful government of this country we are appalled by this and many, many other acts of gross misadministration, malfeasance, and theft by both the Municipal IRS and the Territorial Internal Revenue Service.

The proof that the so-called Sixteenth Amendment to the Territorial Constitution was never ratified is the tip of the iceberg to a much larger scandal; the "constitution" to which the Sixteenth Amendment was added as a By-Law was a fake look-alike, sound-alike document functioning as the Articles of Incorporation for a Scottish Commercial Corporation chartered in 1868 in abuse of our lawful Good Name and Trademarks and doing business as "The United States of America" -- - Incorporated.

All the "Amendments" made to this document from the Thirteenth Amendment onward are merely corporate By-Law Amendments having no force or meaning as Public Law effecting average Americans, but by purposeful and self-interested semantic deceit, these private corporate dictates were enforced as such.

PRESS RELEASE

President Trump Urged to Create DoD-DoJ Task Force on Financial Crime

In combination, NSA data and DTCC discovery will end both naked short selling and money laundering associated with human trafficking as well as trafficking in drugs and weapons.

WASHINGTON, D.C. Earth Intelligence Network has delivered a letter to the President of the United States of America, Donald J. Trump, recommending that he form a joint Department of Defense and Department of Justice Task Force (JDJTF) on financial crime.

This task force should have two missions:

First, to aggressively harvest the data on naked short selling available within the National Security Agency (NSA) unprocessed but stored collection from the past fifteen years – to map with precision the emails, texts, cell calls, and other forms of communication such as game chats used by brokers to coordinate naked short sales (the sale of non-existent shares with malice aforethought in order to steal money outright from pension funds and individual investors); and

Second, to set in motion a major Racketeer Influenced and Corrupt Organizations Act (RICO) endeavor to immediately and deeply examine all records pertaining to Failures to Settle at the Depository Trust & Clearing Corporation (DTCC).

Results from the DTCC probe should be completed within 30 days if properly executed, and will both shock the President and the public once shared; and also make possible the design of a program to recover \$50 trillion from the organized crime gang known as Wall Street, for the benefit of the President's program to Make America Great Again.

The Department of Justice should at the same time be executing deep probes of all records at the National Securities Clearing Corporation (NSCC) and against the internal books of the Prime Brokers including at a minimum Goldman Sachs, Merrill Lynch, JP Morgan, Credit Suisse, Deutsche Bank, and UBS.

The United States of America being at this time in a state of war, with the President having full war-time authorities, this endeavor should not be burdened by nor delayed by peacetime legal obstacles such as Wall Street has learned to use to avoid being held accountable for sabotage of the US economy and the persistent malicious stealing of trillions of dollars from pension funds and individual investors.

The Task Force will find that the laundering of money from drug sales and trafficking in women and children is the flip side of naked short selling – the first profits from selling shares that do not exist; the second pretends that trillions have been produced from smart investing that did not happen.

A subject matter expert is available: <http://www.csj-law.com/attorneys/jchristian.html>.

Internal Revenue Service, Department of the Treasury

TO ALL DISTRICT DIRECTORS
APRIL 4, 1985.

On March 5, 1985, a charge of tax evasion was filed in U.S. District Court in Indianapolis, Indiana by U.S. Attorney George Duncan. The charges were dismissed! The defense attorney, Lowell Becraft of Huntsville, Alabama presented irrefutable evidence that the 16th Amendment to the *U.S. Constitution* was never properly ratified. This amendment which established the "income tax", was signed into law despite serious defects. In reality only two States ratified the amendment and ratification requires 36 states to be valid. The effect of this is such that every tax paid into the Treasury since 1913, is due and refundable to every citizen and business.

The official position of the service is, as it has always been to aid and assist the citizens of the United States. We will not publish or advertise this finding as a total immediate refund would cause a serious drain on the resources of the Treasury. For those citizens who become aware of this finding and apply for a total refund, expedite their refund documents as quickly and as quietly as possible.

A simple 1040X form will suffice until a new form is designed and printed. Advise each of your managers that they are not to discuss this situation with anyone. There will be no written communications and you are to destroy this memorandum.

The Secretary of the Treasury assures me that there will be no reduction in the workforce as this refunding activity will take a minimum of 5 years to complete. Further directions will be forwarded as the need arises.

Roscoe L. Egger, Jr.
Commissioner of Internal Revenue
